**“Rescuing the Evidence:  
Three Minutes in Poland”**

Visiting his hometown in Poland in August 1938, one year before the outbreak of World War II, David Kurtz captured three minutes of ordinary life on film. More than 70 years later, these few minutes of home movie footage would become a memorial to an entire community annihilated in the Holocaust. His grandson Glenn Kurtz, author of the critically acclaimed book *Three Minutes in Poland: Discovering a Lost World in a 1938 Family Film*, will describe his four-year effort to identify the people in the film's haunting images – a search that took him across the United States, to Canada, England, Poland and Israel, to archives, film preservation laboratories, and an abandoned Luftwaffe airfield.

Set in large cities, small towns, and tiny villages of Austrian Galicia -- the region that from 1772 to 1918 spanned parts of today's Poland and Ukraine -- the book reflects on centuries of Jewish history in the region, on the interaction between its ethnic groups, and on the debates and tensions within the diverse Jewish community. Despite the challenges to tracing Jewish heritage anywhere in Europe, especially in the years of the Holocaust, Dr. Zalewski has discovered many voices that had long been forgotten, as well as surprising details about his own family. His talk will be illustrated by genealogical findings and by archival pictures and old maps of Galicia.</p>

But eventually they realized that to truly understand their ancestors’ lives they'd have to go to their towns -- to breathe the air and see the sites. The process went from an idea to a plan -- where to go, how to get there, and how to navigate three countries (Poland, Lithuania, Belarus) without knowing their languages. In this informative and entertaining talk, the Farrans will describe their planning process and their trip to ancestral lands.</p>
