## ABOUT JGSLI

The Jewish Genealogy Society of Long Island, Inc. (JGSLI) was founded in 1985 to bring together and help people interested in pursuing Jewish genealogical research.

A non-profit organization run through the voluntary efforts of our members, the society works to encourage genealogical research, to collect and disseminate information on genealogical resources and techniques; to assist and educate our members and the general public in the methods available to find one's roots; and to promote the preservation of and access to genealogical records and resources.

Contrary to popular belief, many Jewish records exist in the United States, Europe and Israel. The key to effectively unraveling one's roots lies in knowing what sources of information exist, and where and how to find them. Let the JGSLI help!
