Presents

Jewish Genealogy 101: Four Hours+ to Your Family Roots

Now in its thirty-third year, the Jewish Genealogy Society of Long Island's Family History Workshop is a four hour plus course on sources and strategies essential for Jewish genealogical research.

Jewish Genealogy 101 is both:

- An overview for beginners, many of whom are eager to learn about their roots but don't know where to start, and
- A review for family historians who want to brush up on or expand their skills.

The workshop's expert instructors will explain where and how to find the many Jewish records which exist in the United States, Europe and Israel.

Membership is open to all, regardless of religion or experience. Members receive a subscription to **Lineage**, our award-winning newsletter; access to JGSLI's members-only section on the website with recordings of past meetings; and various discounts and support in their search for their roots.
